## **PRESS RELEASE**

Düsseldorf, July 13, 2007

Order for SMS Demag Ltd.

**Heidtman Steel Products, Inc.  
to install a new multi-blanking line**

Heidtman Steel Products Inc. has awarded SMS Demag Ltd., Oakville, Ontario, Canada, a company of the SMS group, Germany, an order for a new multi-blanking line to be installed at its steel processing center in Butler, Indiana, USA.

This line will feature SMS Demag's development of the CNC slitter head. The CNC slitter head provides several advantages such as sequenced production of similar coils, less offline setup labor, less tooling and less spares since only one slitter head is required. This line will process material from 0.010 ins to 0.135 ins thick coils 72 inches wide, weighing up to 80,000 lb and will run at various speeds utilizing the operation mode of the flying shear.
