Order for SMS Siemag

**Dragon Steel awards SMS Siemag an order to extend
the X-Melt® converter shop in Taiwan**

Dragon Steel Corporation, Taichung, Taiwan, has placed an order with SMS Siemag, Germany, to supply the third 230-t converter as part of the extension of the carbon steel plant (Phase II).

The SMS Siemag supply scope comprises a 230-t converter with lamella suspension, bottom stirrers and a subblance with robot, the complete bin system for ferroalloys, the gas cleaning system with primary and secondary dust collection as well as the gas recovery system, all vehicles, ladles and slag pots.

For the visualization and control, SMS Siemag is supplying the complete X-Pact® Level 1 automation system and the instrumentation for the electrical equipment.

The third converter is scheduled to be commissioned in 2012. The converter shop, with a total of three converters, is designed for an annual production of six million t of steel.

SMS Mevac has received an order to supply a second RH-TOP facility.

Already at the beginning of this year, the converters Nos. 1 and 2 as well as the first RH-TOP facility were put successfully into operation. 34 heats per converter have already been produced in 24-hour operation.

Dragon Steel Corporation is a company of the CSC Group, Kaohsiung, Taiwan, one of Asia's most important steel concerns.
